HOW IT WORKS

CabLite™ is a CSA compliant LED lighting solution designed specifically for elevator cabs by the elevator electronics experts at ECI America.

Cool, bright LED cab downlighting with **ten times the efficiency of incandescent lamps** – twice that of fluorescents – saves energy, reduces waste heat, and provides emergency lighting and dimming features.

Eco-Friendly Upgrade or New Construction

A typical system consists of an intelligent microprocessor controller and vandal-resistant downlights for 6, 9, 12, 15 or 18 cab ceiling lamps with plug-and-play connecting cables.

Retrofit jobs are a snap with **CabLite's** shallow can depth and available adaptor reducer plates.

ADVANTAGES

- Code and CSA/UL Compliant Cab Lighting
- Emergency Lighting
- Energy Savings to 80%
- Run Cooler use Less AC
- 100,000 Hour Life
- Reduce Re-lamping
- Quick Eco-Upgrade
